

BUT 1 – Semestre 2 – SAé 2.04 – English

In the UK the equivalent of the French *Parcoursup* university admissions system is called UCAS (Universities and Colleges Admissions Service). On their website, they provide very comprehensive sets of statistical data on admissions.

The following questions are about the **UCAS June 2023 undergraduate application deadline reports**. All groups **MUST answer questions 1, 2 and 3** and then **CHOOSE 4 questions** from the remaining seven. Make sure that you indicate the numbers of the chosen questions. All questions must be answered with full sentences. Bar or line graphs must be supplied to illustrate trends when required in the questions.

The PDF files containing your answers will be dropped on the area intended for this purpose on the platform Moodle by 20 May 2024. Only one document per team must be submitted. Do not forget to indicate the team members' names in the document.

- 1) In a bar or line graph, show the evolution in the numbers of :
 - a) all applicants between 2006 and 2023
 - b) international applicants from the EU (excluding UK) between 2006 and 2023
 - c) international non-EU applicants between 2006 and 2023
- 2) Compare the figures for applications between 2021 and 2023 of applicants from England, the EU (excluding UK), Northern Ireland, International not EU, Scotland and Wales.
What can you conclude from these ?
- 3) Has Brexit had an effect on the number of French applicants to UK universities ? What about other EU countries ? Use bar or line graphs to compare the figures before and after Brexit.
- 4) Which country (excluding the UK) had the highest number of applicants in June 2023 ? Indicate the number to justify your answer.
- 5) Which country (excluding the UK) had the highest number of female applicants in June 2023 ? Indicate the number to justify your answer.
- 6) Show how the number of applicants from Australia has evolved between 2006 and 2023 in a bar or line graph. Compare the figures for all age groups and genders.
- 7) Show how the number of applicants from China has evolved between 2006 and 2023 in a bar or line graph. Compare the figures for all age groups and genders.
- 8) In 2023 which country showed a 150% increase from 2006 in the number of female applicants for the age group 17 and under ? Justify your answer with a bar or line graph.
- 9) Give three examples of countries on the African continent which had no applicants to UK universities from 2006 to 2023. Can you explain why ?
- 10) Which country (excluding the UK) had the highest total number of applicants in the age group 35 and over, but also the highest number of female and male applicants in that same age group ? Indicate all three numbers to justify your answer.
